

ABSTRACT

A weather-tight storage device and carrier for a single or multiple fishing rods and reels releasably mounted to a vehicular roof carrier rack. When not mounted on a vehicle, the storage device and carrier is manageable enough to be hand-carried and may also serve as a stand for the rods and reels. The storage device and carrier includes a carrier box housing the fishing reels and a portion of the associated fishing rods and an anchor portion for securing the distal ends of the associated fishing rods to the vehicular roof rack.
